

NEXT GENERATION ZONE

Mission Statement & E-speech

FINAL DRAFT, 1/22/10

MISSION STATEMENT: “Collaborating with respected partners, we provide young adults with one-stop education, training, support, and employment opportunities to navigate pathways to success.”

E-SPEECH: “Next Generation Zone positions young adults to become successful employees on a career path.

Each year we see over 3,000 young adults, working with them to better their career opportunities with local businesses in an increasingly difficult and competitive market.

By combining training, education and various support services at a one-stop center for young adults, we strive to make it easier for them to navigate pathways to success.

We are here to serve and collaborate with private and public partners and employers to improve not only the future of our youth but our community.”
